

UNPERFUMED FOAM HANDSAN 182

Formulated in response to the focus on hygiene problems in areas where infection through cross contamination is a problem. The complex foam and sanitising system is primarily used on the hands prior to contact with people, surfaces, instruments, food, etc. A highly effective blend containing skin emollients and foam enhancers designed to conveniently sanitise without the need for drying on a towel.

- Very effective – kills a wide range of bacteria
- No residual odour or taint - unperfumed
- Kind to hands
- No need to wipe dry
- Pleasant and easy to use
- Leaves hands clean and 99.9999% germ free
- Contains emollients to keep hands soft
- Alcohol free
- Extremely cost effective compared to gels

Application

If facilities are available it is recommended to wash the hands with a suitable soap and clean water prior applying Foam Handsan. Dispense foam onto palm of the hand and then massage over front and back of both hands taking care to work well into webs & cuticle area. Ensure both hands are fully treated. Shake hands in air until dry. May also be used in a hand wipe tub as a concentrate.

DO NOT USE A TOWEL. Repeat the process on a regular basis.

Available in 50, 100 & 500ml foamers, 800ml pouches plus 1-5litre containers and bulk
